Wrocław, Jerzego Bajana st.

Marcin Jakubiak

in/marcin-jakubiak

I am a UX / UI designer. I develop myself in this field in January 2021. I have been carrying out freelance jobs since August 2021. I deal with UX after working hours and I continuously learn, design and prepare my professional portfolio. I have extensive experience working in an international team where the leading language is English.

Education

Wrocław University of Science

Field of study - Mechanical Engineering

Faculty - Engineering of Aviation

10.2016 - 02.2020

Become UX Designer

01.2022

Become a User Experience Designer

11h learning path

Experience

LG Energy Solution

Innovation Specialist | Business Management Group 06/2021 - present

My current job where I design and improve production processes. Projects are defined in accordance with a specific KPI and implementation is based on the research. I use 6 sigma, lean and PRINCE2 methodology.

(Define, Measure, Analyze, Improve, Control)

I also conduct Industrial Engineering trainings and direct the “Continuous Improvement Process” team.

Freelance Designer

UX/UI Designer 08/2021 - present

My portfolio website can be viewed at this link:

Xeos (Lufthansa Technik & GE Aviation)

Aircraft Engine Mechanic Trainee 03/2020 - 04/2021

I followed a 15-month training program to become an authorized GE-nx engine mechanic for the **Boeing 747-8**. I gained theoretical and practical skills related to servicing turbine engines, but also received training in aviation law, **human factor**, work organization and **teamwork**. Unfortunately, the training was not completed due to the suspension of the Xeos company, caused mostly the crisis on the aviation market.
